BOYD STREET SIDEWALK IMPROVEMENTS

On Monday May12, 2014, a contractor will begin construction of sidewalk improvements on the south side of Boyd Street, between Classen Boulevard and Barkley Street. The new sidewalks will fill in the last gap of sidewalks along Boyd Street between the OU campus and 12th Avenue SE. The contractor will start at the east end of the project and proceed westward. At least one lane of Boyd Street will remain open as work begins. The contractor will contact residents that are affected as work progresses. At that time, those residents should plan on parking on a side street or make parking arrangements with a neighbor until their specific driveway work is concluded.

A-Tech Paving will be performing the work which should be completed by July 25, 2014. The project bid of \$122,800 is being funded with 80% federal and 20% City funds. Contact Michael Rayburn (217-7713) with any questions.
